

# M-CRS-000

## Mobile Cable Reel Stand

The Mobile Cable Reel Stand (MCRS) can handle both wooden and metal reels. Its narrow 32" wide design allows the MCRS to fit through any standard doorway. Its sturdy construction permits up to 5000 lbs of payload to be deployed directly to where it's needed on the job site.

The versatility of the MCRS allow for any reel configuration when using Reel Power's Compartment reels.

# M-CRS-000

## Mobile Cable Reel Stand

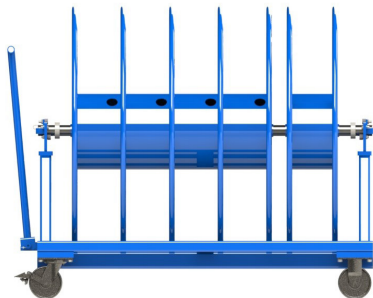

MCRS's T-handle allows for easy maneuverability but can be lifted with forklift or other material handling equipment when required. With 4 heavy duty casters this allows the MCRS to roll smoothly and once in place the front casters lock for operation.
